Applicant agrees to the following City of Kenai requirements.

- ❖ The flow line of the gutter has to be maintained. Driveways that tie into a street with barrier curbs have to be replaced with a driveway cut that maintains the gutter flow line. The back of the barrier curb cannot simply be knocked off.
- ❖ Streets with ditches must have the flow in the ditch maintained. **A minimum 15-inch diameter culvert must be installed under the driveway and extend a minimum of two feet beyond the gravel on each side of the driveway at the base of the culvert.**
- ❖ All frost-susceptible material should be removed from the portion of the driveway that is within the public right-of-way. **If the road is paved, the driveway approach that is within the right-of-way must be paved.**
- ❖ The public right-of-way must be restored to the grade and condition originally found and gravel, paving, seal coating, ditches, culverts, and curbs restored to original condition.
